SUMMARY

Highly motivated and detail-oriented Computer Science graduate with hands-on experience in DevOps, system administration, web hosting, and server management. Skilled in Python, SQL, Linux, Docker, and web development, with a proven ability to optimize performance and streamline processes. Seeking an innovative and growth-driven role as a DevOps Engineer to apply my technical expertise and problem-solving abilities in a challenging environment.

EDUCATION

B.Sc. in Computer Science

Sheth L.U.J & Sir M.V. College, Mumbai, MH

Graduating 2021 - 2025

Expected Graduation: 2025

Relevant coursework: Operating Systems, Web Development, Databases, Networking, Cloud Computing, Linux Administration

TECHNICAL SKILLS

Programming & Web Development: HTML CSS SQL Python JavaScript PHP

System Administration & DevOps Tools: Linux Docker CWP Pannel AA Panel

Web Hosting & Deployment: Apache Nginx WordPress PHP Laravel

Database Management: MySQL MongoDB SQLite

Other Tools: Git Bash PIL (Python Imaging Library) Bash Scripting

PROFESSIONAL EXPERIENCE

SupportHives, Mumbai, MH: Technical Support Intern

2024 - Present

- Configured and managed web hosting environments using CWP, AA Panel, and Docker to ensure scalability and high availability.
- Provided technical support for web hosting services, troubleshooting server issues, and ensuring optimal server performance and uptime.
- Assisted in securing servers and performed regular maintenance tasks, improving system reliability.
- Reduced server load time by 40

SupportHives (Internship Project), Mumbai, MH: Web Hosting Deployment for PHP Laravel & WordPress

2024 - Present

- Deployed and managed hosting for multiple PHP Laravel and WordPress websites, optimizing server configuration for better performance.
- Configured domains and implemented SSL certificates for secure access, ensuring best practices for web security.
- Improved website performance through caching strategies, database optimization, and reducing load times.
- Implemented automated backups and enhanced server security measures to ensure high availability and business continuity.

MVLU College, Mumbai, MH: Social Media Coordinator

2023 - 2024

- Created and managed engaging content to promote college events and initiatives, improving online visibility.
- Collaborated with the marketing and PR teams to execute successful digital campaigns across various social media platforms.
- Managed social media accounts, resulting in increased engagement and a higher volume of online interactions.

PROJECTS

Website Deployment Projects

2024 - Present

Successfully deployed and managed multiple websites, ensuring optimal performance, security, and scalability.

- Configured and optimized hosting environments for ****Della.in****, ****bodyandmindcareguides.com****, and ****developmentguides4you.com****.
- Handled domain and SSL management for all deployed projects to ensure secure access.
- Configured server settings for enhanced website performance, reducing load times and improving user experience.

Student Result Management System

2024

Developed a system to streamline student records and result processing.

- Developed a login and sign-up system to secure student access to their results, utilizing PHP, MySQL, and JavaScript.
- Created an Admin Panel for administrators to manage student data and assign marks efficiently.
- Designed and integrated the system to ensure data integrity and smooth operation for both students and administrators.

Student Detail Management System

2024

Designed and implemented a Tkinter-based GUI for managing student records.

- Developed a Python-based system for adding, updating, and deleting student details, utilizing SQLite for data management.
- Implemented filtering and search functionality to enable easy retrieval of student records.
- Designed an intuitive user interface for a better user experience using Tkinter.

CERTIFICATIONS

- Java Programming [2023]
- Front-End Development [2023]
- Fundamentals of Digital Marketing [2023]
- Understanding Research Methods [2024]
- Social Media Management of Library [2023-2024]

TOOLS & TECHNOLOGIES

DevOps Tools

Docker Kubernetes Jenkins AWS Terraform CWP AA Panel

- Cloud computing tools such as AWS and Kubernetes to automate processes and improve scalability.
- Automated deployment processes using Jenkins, ensuring continuous integration and delivery.
- Containerized applications using Docker for easier management and deployment.

Programming Languages

Python Bash PHP JavaScript SQL

- Highly skilled in Python, Bash scripting, and SQL for database management and automation.

Web Development

HTML CSS PHP Laravel WordPress

- Experience building and deploying websites using WordPress and PHP Laravel.
